

AOR Event Sponsorship Opportunities

AOR provides value to its members by hosting educational events including forums, tours, and webinars. In addition, these events provide invaluable networking opportunities, bringing people from across the industry, from across the state, to share their experiences and learn from fellow members and community members.

AOR events are well-attended and highly valued by our members and sponsorships of these events are a great way to show your support for the recycling industry and AOR. Your sponsorship not only showcases your organization, but supports AORs work throughout the year to achieve a system of sustainable materials management in Oregon.
