

Sustainable **OREGON** *2019*

*The conference that connects Oregon's
materials management industry.*

JUNE 19-21 | BEND, OR

oregonrecyclers.org

ASSOCIATION of
**OREGON
RECYCLERS**

SPONSORSHIP OVERVIEW

THE CONFERENCE

Sustainable Oregon 2019, is AOR's 41st annual Conference & Trade Show is a three-day interactive learning experience featuring cutting-edge educational sessions, workshops, local and national experts and speakers, facility tours, valuable networking opportunities, and an awards program to celebrate the achievements of Oregon's recycling, reuse, and waste reduction businesses and leaders. **The conference also provides unmatched networking opportunities in one location.** This is the time and place each year that recycling professionals from Oregon and around the Northwest gather to talk all things recycling, composting, and sustainable materials management. The conference will be held at The Riverhouse on the Deschutes in Bend, Oregon.

WHY SPONSOR?

Sustainable Oregon 2019 offers an array of sponsorship opportunities that provide your business or organization with unmatched access to professionals working at the cutting edge of recycling and waste management in Oregon and across the Pacific NW. The conference is a cost-effective way to promote your products and services and gain recognition for your recycling and waste prevention achievements. Conference sponsorship also demonstrates your commitment to AOR and the growth of the recycling industry in Oregon.

Your Sustainable Oregon sponsorship supports the state's most important annual recycling industry event and AOR's work throughout the year. AOR hosts two educational forums each year convening professionals from around the state to address the most immediate challenges in our industry. Our two On the Road tours offer members a behind the scenes look into the businesses that make Oregon a sustainable place to live.

Supporting AOR is also a means of supporting the critical legislative advocacy necessary to ensure that Oregon's remains a national leader on recycling. AOR's legislative work is essential to delivering our vision for a system of sustainable materials management, high-quality recycling and composting, thoughtful consumption, and producer responsibility. Our website, newsletter (1,200+ subscribers), and social media (1,550 followers on Twitter; 755 Facebook followers), presence reaches far beyond our membership, further enhancing our ability to share our mission and the work we do throughout Oregon.

NEW IN 2019!

AOR has reshaped our sponsorship packages for 2019 to better connect our sponsors to the attendees they are seeking to reach. Now, not only do sponsorships include recognition during the conference, we will be promoting our sponsors year-long through our e-news, blog, and social media. And with our conference going digital, sponsors will have a strong presence on our website for all who visit to see. We are also providing new opportunities and flexibility to tailor sponsorship packages to more specific audiences and provide more direct visibility during specific conference events. If you are interested in sponsoring, but you don't see the right fit for you, call us. We'd be glad to work with you to find a package of benefits that meets your needs.

Finally, we've added two exciting new sponsorship opportunities: The Title Sponsorship and Scholarship Sponsorship, both of which come with extensive benefits throughout the conference and beyond.

ABOUT AOR

AOR is a nonprofit 501(C)(6) trade association founded in 1977, committed to achieving a system of sustainable materials management by supporting high-quality recycling and composting, thoughtful consumption, and producer responsibility. AOR provides value to its members by hosting educational events, delivering publications to enhance our understanding and connections to diverse perspectives, and lobbying for legislation that supports sustainable materials management. Nonprofits; waste haulers; recyclers; state, federal, and local government; recycled product manufacturers; educational institutions; and many others come together under the AOR umbrella to achieve these goals.
