

2024 SUSTAINABLE OREGON SPONSORSHIP OVERVIEW

THE CONFERENCE

Sustainable Oregon 2024, AOR's 46th annual conference, will be held at the Sheraton Portland Airport Hotel on June 18th. The Sustainable Oregon Conference brings together hundreds of attendees for interactive learning experiences featuring cutting-edge educational sessions and networking opportunities with industry leaders and experts.

WHY SPONSOR?

Sustainable Oregon offers an array of sponsorship opportunities that not only promote your organization but also demonstrates your commitment to AOR and the growth of the materials management industry in Oregon.

Your Sustainable Oregon sponsorship supports the state's most important annual recycling industry event and AOR's work throughout the year. Supporting AOR also means supporting the critical legislative advocacy necessary to ensure that Oregon remains a national leader in material management. AOR's legislative work has been instrumental in advancing sustainable materials management, high-quality recycling and composting, thoughtful consumption, and producer responsibility in Oregon for decades. AOR was a member of the Recycling Steering Committee which developed the framework for The Plastic Pollution and Recycling Modernization Act in 2021 (RMA). AOR continues to be involved in ongoing work of the RMA.

We had several notable legislative wins during the 2023 session:

- AOR supported and advocated for SB 543 which prohibits the use of polystyrene foam food containers. The bill was signed into law by Governor Kotek and takes effect July 1, 2024.
- AOR supported and advocated for SB 545 which allows consumers to bring their own containers to restaurants fill with food. The bill was signed into law by Governor Kotek and took effect May 8, 2024.
- Supported and advocated for HB 3220 which expands the Oregon E-Cycles program.
- Supported and advocated for SB 542 which establishes the Right-to-Repair for consumer electronics
- Supported and advocated for SB 123 which directs a PRO consider and develop recommendations for use of digital labeling to convey information about recyclability claims and include recommendations in producer responsibility program plan or plan amendment no later than December 31, 2027. Governor Kotek signed this bill into law which takes effect January 1, 2024.

In addition to supporting our ongoing legislative efforts, your sponsorship will help support our DEI efforts, revamping our online Recycling 101 course, and other priority initiatives in the coming year.

OUR REACH

Our website, newsletter (~2,000 subscribers), and social media (~1,600 followers on Twitter; ~1,200 Facebook followers; and LinkedIn) presence reaches far beyond our membership, further enhancing our ability to showcase your sponsorship and the work YOU do in the sustainable materials management sphere.

Our sponsorship packages are designed to connect our sponsors to the attendees they are seeking to reach. Now, not only do sponsorships include recognition during the conference, we will be promoting our sponsors year-long through our e-news, blog, and social media, as well as a strong presence on our website. We are also providing new opportunities and flexibility to tailor sponsorship packages to more specific audiences and provide more direct visibility during specific conference events. If you are interested in sponsoring, but you don't see the right fit for you, call us. We'd be glad to work with you to find a suite of benefits that meets your needs.

ABOUT AOR

AOR is a nonprofit 501(C)(6) trade association founded in 1977, committed to achieving a system of sustainable materials management by supporting high-quality recycling and composting, thoughtful consumption, and producer responsibility. AOR provides value to its members by hosting educational events, delivering publications to enhance our understanding and connections to diverse perspectives, and lobbying for legislation that supports sustainable materials management.

Our membership spans the gamut of the sustainable materials management industry. Nonprofits; waste haulers; recyclers; reuse organizations, state, federal, and local government; packaging producers, recycling equipment manufacturers, educational institutions and many others come together under the AOR umbrella to achieve these goals.

If your company or organization is interested in sponsoring the conference, please let us know by **Friday, May 31, 2024**. Feel free to contact Amy Roth, AOR's Resource Director, for more details at amy@oregonrecyclers.org.
